CA Account Tender

by Club Automation

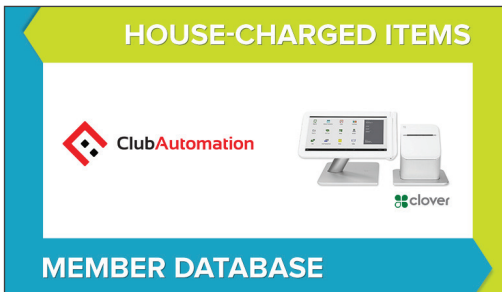

ClubAutomation

Automate and improve **all** aspects of operations at your tennis/fitness facility.
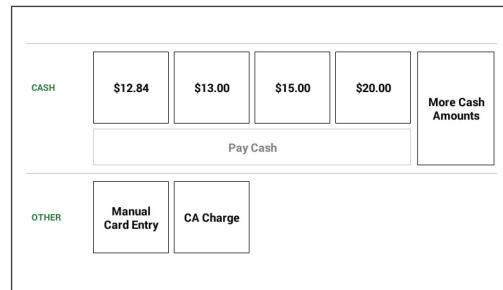

Connect Clover with your Club Automation and provide the members an easy way to charge items from Clover to their account.

The CA Account Tender app combines the simple efficiency of Clover's POS platform with the power and sophistication of Club Automation's club management system. Download our CA Account Tender app to your device, and you'll be able to drive more revenue by providing your members the convenience of charging items to their CA account directly from Clover.

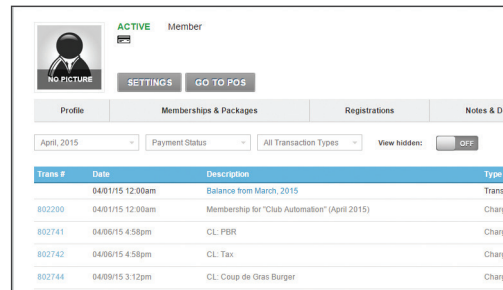

Pull your member database from Club Automation to Clover and charge items from Clover directly to members' accounts in Club Automation

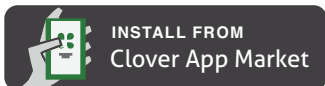

Charging members accounts from Clover is as easy as selecting the CA Charge payment type from the register

Easily search your member database directly from your Clover register

Post charges from Clover directly to member accounts in Club Automation
